ARTICLE 5

Shall the Town of Hampton, NH Planning Board implement a Growth Management Ordinance to limit the amount of development that is currently occurring in this town?

The residents of the Town of Hampton deem it desirable to control growth, size and nature to achieve the following objectives:

To limit the development of an economically sound and environmentally stable “Small Town” residential community;

To preserve the scenic beauty and present aesthetic values of the Town;

To prevent scattered and premature development of the land;

To protect the health, safety convenience, property, and general welfare of it’s inhabitants;

To insure that the rate of growth of the Town does not unreasonably interfere with the Town’s capacity for planned, orderly, and sensible expansion of its’ services to accommodate such growth;

To promote development harmonious with land capabilities within the Town;

To prevent too rapid a pace of growth that tends to thwart the planning process and to escalate too rapidly the growth and costs of Municipal Services, especially of the Schools;

To allow the shared growth goals, plans, and objectives of the Town, its’ Planning Officials and the residents to be realized in a comprehensive fashion as set forth in the Hampton Master Plan;

This Growth Ordinance should also provide a mechanism when Municipal Services are strained or overloaded to reduce the rate of residential growth to allow the Town time to correct any deficiencies that have developed.

I. Authority and Purpose

This Growth Management Ordinance is enacted pursuant to the authority granted by NH RSA’s 674:21, 674:22, and 674:23. It is intended to regulate and control the timing of development in accordance with the objectives of both the Master Plan and the Capital Improvements Program adopted by the Hampton Planning Board. These two documents assess and balance the

community development needs of Town of Hampton and consider regional development needs. The Interim Growth Management Ordinance is intended to promote the orderly development of land within the Town of Hampton and also to promote the Public Health, Safety, and Welfare of the residents in the Town of Hampton. The continual increases to local Property Taxes has put an inordinate strain on our citizens, many of whom are elderly and on a fixed income and/or are considered low to moderate income wage earners. This raises serious questions about whether the existing Master Plan, Capital Improvement Program and Zoning Ordinance adequately reflect the Planning Board and Community's expectations for logical and desirable development for this Community.

The Town of Hampton Planning Board seems to be burdened with the responsibilities of Subdivision and Site Plan review that it has not had the time or resources to adequately take up and study these issues and concerns.

II. Land Use Section

A Land Use section should be developed that translates the vision statements into physical terms. Based on a study of population, economic activity and natural, historic and cultural resources, it shall show existing conditions and the proposed location, extent and intensity of future land use as required by NH RSA 674:2.

Specifically the Planning Board makes the following FINDINGS OF FACT:

- The ability of the existing municipal roadway network is inadequate to handle increased roadway traffic without a plan for upgrading these roadways;
- Overdevelopment is causing the fragmentation of Wildlife habitats and the existing Master Plan does not inventory with sufficient detail and prioritize those remaining undeveloped areas of land based upon their Environmental characteristics and sensitivity and designate areas based on such priorities for Conservation Preservation.

III. Annual Building Permit Limitation

A. The number of building permits issued in a calendar year for new residential dwelling unit is limited to an amount that is 2.0% of total dwelling units in the Town of Hampton as of December 31 of the prior year.

B. For the purpose of the ordinance the December 31 base of dwelling units shall be determined from the 2000 US Census, updated with annual building permit data reported to the New Hampshire Office of State Planning.

IV. Equitable Distribution of Building Permits

A. The town shall issue building permits for new dwellings on a "first come-first serve" basis.

B. No more than five (5) permits per year will be issued to any one individual, corporation, partnership, or entity.

C. Twenty-five percent (25%) of all permits issued each year will be reserved for landowners building their own home.

D. Shall the Town of Hampton limit the building of new residential structures in residential zones, not including additions, sheds, garages, etc.... to existing residential homes. This should pertain to undeveloped properties.

V. Subdivisions

No single subdivision shall receive final plat approval for more than five (5) lots or dwelling units in any 12-month period.

VI. Adoption and Amendment

This Growth Management Ordinance may be adopted or amended in Accordance with the procedures set forth in NH RSA 674:23.

VII. Effective Dates

This ordinance becomes effective upon adoption and shall remain in effect until 11:59 PM May 31, 2010, unless readopted prior to that date. This is a Growth Management Ordinance to allow the Town to control the rate of development so it does not exceed the ability of Town Services. The orderly growth of population and development will reduce the undue straining of existing and planned Town Services, Schools, and Roads. It will apply only to residential development. The population in the Town of Hampton in 2002 was 15,138; in 2003 was 15,266; in 2004 was 15,376 and the projection for 2005 is 15,580. The average number of new residential permits issued in 2004 was 1,727 and is currently at 1,354 for 2005. The cost of the addition at Winnacunnet High School was \$26,850,000.00; the current student capacity is at 1,325. If the development continues in Hampton as previously stated this will only result in higher taxes as the need for new schools will arise as well as increased costs for Municipal Services. The residents of the Town of Hampton are requesting that the Town of Hampton Planning Board take this request into serious consideration and replace the Impact Fee with a Growth Management Ordinance. (By Petition)
